website

How do we submit the homework online if it's on paper?

video

If we do use AI to help us with our work, how would you like us to cite it?

any other reference

When does Northeastern release the finals schedule?

?

If we want to ask a question can we just ask during the lecture or should we wait for office hours?

→ yes!

On quiz days, will there be any material covered in addition to the quiz?

no

Since the final is a longer assessment compared to the other quizzes, do we get more time for it?

Yes! 2 hours

You mentioned some material in this class is foundational for other math courses, and I was just wondering if some of the proof methods we are going to learn will still be applicable or usable in higher level math or different types of math classes.

yes! induction, contrapositive

If this class is also largely about proofs and formal logic, how does the material differ from/build on the content of other math classes like math1365?

complementary, maybe some overlap

I feel like I already know the topics that will be covered in this class, could you please share some revision and practice resources I can use to prepare for the test?

topics in email

I have no questions right now

What is the best way to succeed in this class?

engage w/ material
