PyCharm

For all users, go to: <u>https://www.jetbrains.com/pycharm/</u>

For Windows:

Download the community/student version of PyCharm.

If you have a Mac, check your processing chip like this:

3. Apple chip:

Intel Chip:

4. Choose the appropriate download on the PyCharm website (make sure to get the community/student version):

Downloading Python

Windows users: https://www.python.org/downloads/windows/

Mac users:

1. Check if you have python by Go to Applications > Utilities > Terminal.

- 1. Type: python3 --version
- 2. Press Return
- 3. If Python is installed, you will see a message telling you which version.
- 4. If it's not installed, you will see 'command not found: python'

If you do not have python then download it here: <u>https://www.python.org/downloads/macos/</u>
